

ALLERGEN GUIDE

We know many of our valued guests have varying degrees of food intolerances and allergies. To ensure you have a safe experience, please review the following information to assist you with selecting menu options that best fit your individual needs.

Because of our reliance on suppliers for accurate information, shared cooking and preparation areas in our kitchens, and cooking procedures, we cannot guarantee that guests with food or beverage allergies may not be exposed through cross contamination. Please understand that we cannot be responsible for any injury, loss, or damage claimed by any guest with a food or beverage allergy who consumes our food or beverages.

Before placing your order, please inform your server if a person in your party has a food or beverage allergy. This guide is updated periodically; we suggest you check back each time you dine with us.
